

Proven Floor Scales:

On-floor, In-floor, or Portable applications

- ◆ Mild Steel or Stainless Steel models
- ◆ 24 x 24" 500 lbs capacity to 96 x 120" 40,000 lbs capacity

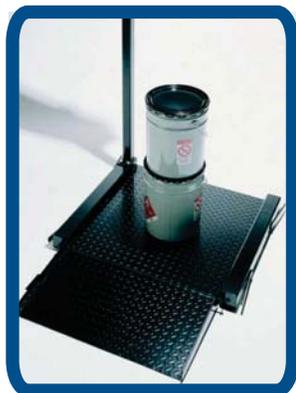

All floor scales are not alike! B&R Technologies Series floor scales are designed for least life cost and sustained accuracy with features that outperform the competition:

Features:

- ◆ Premium black powder coat finish (mild steel models up to 60 x 60" 10K capacity)
- ◆ Premium Sensortronics™, Coti , or equal load cells (4) adjustable leveling feet
- ◆ 100% end loading capable of handling off-center loads or tanks
- ◆ Heavy duty construction and low profile designed for portable or permanent applications
- ◆ Free matching to any Pennsylvania Scale indicator for a plug & play installation
- ◆ Wide range of capacities, platform sizes, and accessories such as ramps, pit frames and anchor plates
- ◆ Made in USA - ship NAFTA Free Trade to Canada and Mexico
- ◆ Suitable for Commercial Applications (subject to local Weights & Measures regulations)
- ◆ Sizes from 24 x 24" to 96 x 120" and capacities 500 lbs to 40,000 lbs
- ◆ FIVE YEAR Limited Warranty

Shown with optional loading ramps, we offer a wide range of sizes and capacities with premium features proving that not all platform scales are alike!

BEST DEAL:

No better scale than our 48 x 48" and 7500+ PACKAGE complete FOB Lancaster, PA or Terre Haute, IN.

- ◆ Ship skidded and precalibrated, ready for set-up-- plug and play right off the pallet!
- ◆ Ideal heavy duty scale for shipping/receiving
- ◆ 20' cable to quick disconnect/digital indicator
- ◆ Proven 7500+ indicator weighs in lbs/kgs
- ◆ Buttons for ZERO, UNITS, SAMPLE SET, and PRINT
- ◆ High accuracy counting and weighing
- ◆ Standard RS-232 output with programmable data string
- ◆ Choose 1000, 2000, 5000, or 10,000 lbs capacity same low package price

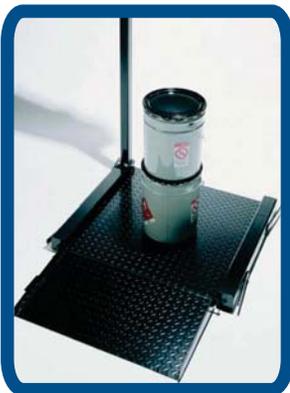

Compare construction, finish, Warranty, features, reputation, and long life design - our 6600 Series outperforms the competition and provides least life cost and extended operation.

TECHNOLOGIES
FLOOR SCALES

There's even a difference in RAMPS: Our loading ramps have UNIQUE knuckle-saving Hand Holds, attachment brackets, and bolt down tabs as standard equipment. Premium powder coat finish up to 48" x 48" models.

For Weighing and Counting applications, the value priced easy-to-use 7500+ and enhanced input 7600+ models are ideal: Factory calibrated with Quick Disconnects, they are ideal universal indicators that are as easy to use as they are accurate. 4 Year Limited Warranty. Standard SS enclosure with

U-bracket for shelf or wall-mounting. Standard RS-232 with programmable formatting. Weigh in 2 units (Lbs/Kgs) standard and suitable for Commercial Applications up to 10,000 counts.

For High Capacity weighing applications, Batching, and Truck Scales, choose the 7400+ (5-button front panel) and 7600E weight indicators: Optional setpoints with easily programmable sequencing, 2 independently programmable data outputs, optional Ethernet and Analog Output (0-10 VDC or 4-20 mA) interfaces plus standard Truck In/Out program that has 300 Tare memories, you can't beat the 7600E for solid value and off the shelf flexibility for a wide range of environments and applications. 4 Year Limited Warranty.

For Dual Base Counting and Weighing (SAMPLE-TO-BULK operation), you can't beat the package of our 7600DB Counting Scale precalibrated to any B&R Technologies Scale platform or base.

'SENSORTRONICS Equipped' - Thanks to a new commitment from Vishay Transducers, we are using more Sensortronics 65023 load cells in our M6600 series Floor Scales than ever. Our standard floor scale has a 3" nominal height (base of foot to top of deckplate) and is 100% consistent with older units. In fact, we've standardized on the 10K frame for all capacities 1/2/5/10K- true HEAVY DUTY construction and quality components make our 6600 series a tremendous value.

Contact us for more information. Options include:

LOADING RAMPS - with convenient knuckle saving hand holds, attachment brackets, and bolt-down tabs

ANCHOR PLATES - easily secure your platform to the floor in rough use applications

PIT FRAMES - used for easy installation in flush mount applications

STAINLESS STEEL LOAD CELLS - environment package for exposure to the elements; you can upgrade to Hermetically Sealed load cells for severe environments

Stainless Steel models at highly competitive pricing

Include Stainless Steel load cells and smooth plate (sand texture) top plates or optional Diamond Plate top surfaces, remote SS Summing boxes for mounting away from submersion and premium SS load cells, fasteners suitable for wet or washdown environments. Standard sizes and custom sizes.

6900 and 6950 Barrel Scales are ideal for Laundries and plants where space is at a premium - low 1 1/2" profile and 'live' side rails for small footprint

Bring us your most demanding application-- forklift traffic, point loading, steel mills, recycling centers for the right scale for your requirement that won't break the bank now or years down the road!

Choose the right Pennsylvania Scale indicator or DUAL BASE Counting Console for your application:

ALL FLOOR SCALES ARE NOT ALIKE!

10 Reasons why Pennsylvania Scale floor scales outperform the competitors

- 1.) We only Sensortronics™* brand premium load cells or equal
- 2.) Meticulous corner adjustments-- FREE matching to any digital indicator!
- 3.) CAD stressed designs-- scientifically engineered for point loading, strongest, least deflection, and long life performance
- 4.) Premium POWDER COAT finish (up to 72 x 72")-- all others premium black sprayed enamel, the same finish applied to truck scales subject to year round all weather use.
- 5.) Extra heavy duty design: For example we standardized on the HD 10K deck frame for all 48 x 48" models 1000, 2000, 5000, and 10,000 lbs capacity
- 6.) REAL Warranties: 5 year Limited
- 7.) Made in USA-- Lancaster, PA or Terre Haute, IN!
- 8.) Special sizes and loading specs at standard prices-- call for pricing!
- 9.) NTEP and Canada COC type approved up to 96 x 120" 20K designs
- 10.) Friendly, flexible, and responsive customer service.
